## PRINCIPAL DESK

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers and productive members of an everchanging global society respective of all concerns mentioned in the National Education Policy 2020. On November 03, **1998 Puja Tapaswi Shri Jagjeewan Jee Maharaj Saraswati Vidya Mandir Hasanpur, Rajgir, Nalanda** pledged to transform education in the embrace of natural beauty on the land of knowledge and tenacity. The school which is run under the aegis of “**Vidya Bharti Akhil Bhartiya Shikshan Sansthan, New Delhi**” and is affiliated to “**Central Board of Secondary Education, New Delhi**” up to the senior secondary level, has earned its own niche as a premium boarding-cum-day scholar school not only in Nalanda but also across the globe. At PTSJM SVM Rajgir, we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic student-centric environment. The talents, skills and abilities of each student need to be identified, nurtured and encouraged so that he or she is able to reach greater heights. Students need to be provided with a platform to think, express and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them with the teacher being a facilitator. The school is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra-curricular activities in children. Converting every individual into a self-reliant and independent citizen, school provides an amalgamation of scholastic and co-scholastic activities.

At PTSJM SVM, our approaches to learning are child centric, encouraging, activity based, experiential and experimental learning to inculcate a scientific temper. In our curriculum, the student is the primary focus and each child is involved in the leaning process. We are constantly improving our teaching methodology so that it turns learning into a combination of classroom study, research and scientific discovery. While academic excellence is our major thrust, the school is also devoted to preparing the students for life, grooming them to face the challenges of tomorrow, and encouraging them to be socially relevant. We constantly endeavour to live up to this ideology and inculcate this into everything. We do it with the aim that we will be able to ensure that children grow to their full potential constantly to bear responsibility in all walk of life.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. I extend my gratitude to them for their faith in us.

I am confident enough that our students will make themselves stronger day by day, adding a new leaf to grandeur of the school.

All the best !

“A child is a complete human being. A child has intelligence, emotions, and understanding. A child has both strengths and weaknesses, likes and dislikes. We should understand the wishes of a child. A child is small and innocent, so we should not insult or reject them for our ego. A child’s outlook is full of questions, and their heart is expressive. In a child’s ‘grammar,’ there are questions and expressions, but no full stop anywhere. A child means living movement without even a pause.”
